

VIKAS PRAJAPATI

(AI/ML Engineer)

vikasprajapati191198@gmail.com | +91 9161589883 | +91 9670446774

Summary:

Experienced AI/ML Engineer with a passion for building intelligent systems. Proficient in Python, data engineering, and deep learning. Adept at creating ETL pipelines, model development, and deployment. Ready to contribute to innovative projects.

Work Experience:

MulticorewareInc: Software Engineer, Chennai, India (Oct 2023 – April 2024)

- Developed ETL pipelines using Azure Data Factory for seamless data ingestion, warehousing, and reporting.
- Orchestrated deep learning models for image recognition and NLP.
- Collaborated with cross-functional teams using Jira, Bitbucket, GitHub, Docker, and Linux/Unix.

Education:

- CDAC Bengaluru: PG Diploma in Big Data Analytics (March 2023 – Aug 2023)
- Bachelors of Technology: Electronics and Communication Engineering (2018 – 2022)

Skills:

- Python
- Data Engineering
- Deep Learning
- Azure Data Factory
- Git (Bitbucket, GitHub)
- Jira
- Docker
- Linux/Unix

Projects:

- **Image Recognition Model:** Built a convolutional neural network (CNN) for image classification.
- **NLP Chatbot:** Developed a chatbot using natural language processing techniques.
